## **Concours Class Description**

**Restored:** Judging in this class will be based on authenticity and quality of workmanship. Replacing original materials, assemblies, or additions of accessories is acceptable only if they were available from the manufacturer during that particular model year. Point determination for the use of reproduction parts will be based on their likeness to factory assembly parts.

**Factory Original (Unrestored):** This class will be judged on the car's originality and condition. Originality will be determined from body identification and production codes. Condition will be based on cleanliness and amount of wear. Only original or GM maintenance parts are eligible to receive full point credit. Use of aftermarket or reproduction parts will be grounds for full point deduction. Cars in this class should have a majority of original paint, upholstery, and chrome plating.

**Modified & Competition Modified:** To enter Concours Modified or Competition Modified, a car must have at least three qualifying modifications such as: engine swap, transmission swap, non-original induction, disc brakes where not original, aftermarket AC, fuel injection, blower, nitrous, suspension mods, custom dash, or upholstery, custom paint (aftermarket color flames, graphics, etc.) tube frame, roll bar, body modifications etc. Cars in this program will be judged on build quality, fit, finish, and detail.
